

# Bamboo building

## Instruction card

### Purpose

Make one or more constructions with bamboo sticks and elastic bands through creativity, insight and collaboration.

### Required material

- Bamboo sticks
- Elastic bands

### Gameplay

- Let the participants first decide if they want to make one construction together or make multiple constructions in teams.
- Let the team think about the design and construction.
- Let the participants practice fastening multiple bamboo sticks together with rubber bands.
- The team will continue building the construction.
- Assignment: if desired, give the group a specific assignment: build a pyramid, build the highest possible construction, build a construction that a ball can rest on, etc.
- **At the end, make sure that the participants dismantle the construction again!**

### Rules of the game

- Only use the bamboo sticks and elastic bands for building and not for other purposes.
- Do not force it, as the bamboo sticks may break.

### Role of game leader

- Motivate participants and encourage them to think and collaborate.
- Supervision of the game rules.
- Give tips and support where necessary.

For any questions and/or uncertainties, please ask our outdoor staff!
